Price List of Young

Ornamental Trees and Shrubs

For Planting in Nursery Rows

VERY IMPORTANT

Present world conditions make it increasingly difficult to secure an adequate supply of many seeds, and this, together with the fact that nursery labor will soon be at a premium, will have the effect of greatly curtailing the production of LINING OUT STOCK for several years to come, despite a fine demand for nursery products in general.

Our present list offers the most complete line of stock in our history, and planting adequate quantities of good stock now will pay dividends.

As we are always busier towards Spring, why not make it a point to spend an hour right now to order your Spring needs AT ONCE BY RETURN MAIL? It costs no more and will assure your supply.
